An Exhibitor Appointed Contractor (EAC) is a company other than the "general or official" service provider on the show that requires access to your booth during installation and dismantling. The EAC may only provide services in the facility that are not designated by the facility as "exclusive" to a designated provider, or by the event organizer in a contract as an exclusive service for the "general or official: service provided or other third party.

No EAC will be allowed to work in an exhibitor's booth if this EAC form, a valid form of insurance, a third party payment authorization form and an exhibitor payment authorization is not completed by an authorized representative and received by Shepard by the due date indicated above. The Form must be completed for every third party (as well as any other ordering third party ordering or requesting services from Shepard on behalf of exhibitor) at the above event. Multiple booths are not to be listed on one form. If form is not submitted by deadline date, the EAC will not be allowed to perform work in the hall except to supervise the official contractor provided labor.

Description of proposed service for Exhibitor

The EAC hired by the exhibitor must, by the deadline date, provide Shepard with a current Certificate of Insurance with minimum limits of $500,000 property damage per occurrence, $1,000,000 personal injury per occurrence, workers compensation aggregate coverage of $1,000,000 per occurrence, and naming Shepard Exposition Services as the certificate holder for the time period of the event, including move-in and move-out days. Listing Shepard Exposition Services as an additionally insured only will not be accepted, and may prevent EAC from working on the premises. If EAC does not have minimum coverage and proper documentation, they will be subject to employing Shepard Exposition Services for labor services.

The EAC must abide by the rules and regulations of the show and all pertinent union regulations.

EAC employees must wear approved identification badges at all times while in the work area. Badge will be issued at show site to authorized contractor representatives when all requirements have been met.

The EAC must confine its operations to the exhibit area of its clients. No service desks, storage areas or other work facilities will be located anywhere in the facility. Show aisles and public areas are not part of the Exhibitor's booth space.

Solicitation of business by EAC is strictly prohibited. EAC companies discovered soliciting will be removed from the show floor and the exhibitor will not be able to use that EAC for the remainder of the event.

The EAC must have all business licenses, work permits and insurance required by State and City governments and Facility Management before beginning work, and shall provide Show Management with evidence of compliance.

If required, the EAC must be able to provide evidence that it has current and applicable labor contracts and must comply with all labor agreements and jurisdictions. The EAC must not jeopardize the production of the event by any act or practice that would lead to work stoppages, strikes or labor disputes.

EAC employees must wear approved identification badges at all times while in the work area. Badges will be issued at show site, to authorized representatives, when all requirements have been met.

EACs agrees to keep all No Freight Aisles clear at all times. If SES is required to rearrange any material situated in a clearly No Freight Aisle, the exhibitor or the EAC depending on billing arrangements will be charged a 1 hour minimum forklift rental and labor.

WHAT IS SHIPPING?
Shipping is the process of a carrier picking up your items from your office or place of origin and transporting it to the dock of either the advance warehouse or facility dock of your event. It is separate from Material Handling. Exhibitors may use any carrier they want, including Shepard Logistics.

WHAT IS MATERIAL HANDLING?
Material Handling is the process of receiving your shipment from your carrier and managing it through the event cycle. It is a standard tradeshow process and it is a chargeable fee typically based on the weight of your shipment. Don’t forget to add Material Handling to your budget!

Material Handling Process:
- Unloading the trade show freight from your carrier once it arrives at the receiving dock.
- Transporting your shipment to your booth space.
- Removing empty shipping containers (boxes, crates, and pallets) from your booth.
- Temporarily storing your empty shipping containers during the show.
- Returning empty shipping containers to your booth once the event is over.
- Transferring the freight back to the loading dock.
- Loading the items into your carrier’s delivery vehicle for return shipping.

ONE EASY WAY TO KEEP YOUR CHARGES LOWER?
Consolidate, Consolidate, Consolidate!
Skid items as much as possible so that they are sure to arrive together. Each shipment that arrives at a separate time is assessed the minimum charge. Whether you ship to the advance warehouse or show site it is in your best interest to consolidate as much as possible.

**What is Material Handling?**

Material Handling is the unloading and delivery of exhibit freight to the exhibitor's booth on the show floor, the storage of empty containers, the return to booth for packing, and the loading back onto the exhibitor's outbound carrier. This is an automatic service and is billed based on weight. This service, whether used completely or in part, are billed as a package.

**How to Calculate Material Handling Services:**

The following services whether used completely or in part are offered as a package. When estimating weight, round up to the next 100 lbs. For example: 285 lbs. = 300 lbs./100 lbs. = 3 X RATE = $ Amount or minimum charge, whichever is greater.

**Standard Material Handling Rates:**

All rates are per 100 pounds with a 200 pound minimum charge. Certified weight tickets are required on all shipments. **Blended Rates:** The rates stated are blended to include overtime based on the schedule at publication. Changes in schedule may result in additional fees.

What is material handling (also referred to as drayage)?

Material handling is the process of unloading your freight from your shipping carrier, either at the warehouse or show site, delivering it to your booth, storing your empty containers (empties) if required, returning of your empties at the close of show, and then reloading your freight back onto your shipping carrier.

What is the definition of "freight"?

Any exhibit materials shipped or delivered to the advance warehouse or show facility via shipping carrier, POV, or delivery truck.

What is the difference between material handling and shipping?

Shipping is the process of carrying your shipment from your location, pick-up area to it's destination and also the process of returning your shipment back to your location after the close of the show. Material handling begins at the time your shipment arrives to the docks (please refer to "What is material handling?" for the full definition.) These are 2 different items and are billed differently.

Do I need to order a forklift to unload or reload my freight? No, please do not order a forklift for unloading/reloading of your materials.

What does CWT mean? CWT is an acronym for Century Weight. Your crated shipment is billed per 100 lbs.

What determines how much I'm charged? Charges are based off the weight from your inbound weight ticket included with your shipment.

How do I calculate material handling charges?

Material handling services whether used completely or in part are offered as a package. When recording weight, round up to the next 100 lbs. EXAMPLE: 285 lbs. = 300 lbs./100 lbs. = 3 X RATE = $ Amount or minimum charge, whichever is greater.

Will there be any additional charges? Additional charges may apply. Please review the Material Handling Authorization and Material Handling Additional Services forms included in the manual for all applicable fees.

What are Light Weight shipments?

All shipments regardless of carrier that weigh 40 pounds or less. Shipments need to have certified weight tickets or other verifiable weight noted upon delivery. Shipments without certified weight tickets may be subject to special handling or reweigh fees. Packages that arrive separately at different times or days will be billed separately.

All shipments, regardless of carrier, weighing 41 lbs and up will be billed using the standard material handling rates listed in the kit and billed at a 200 lb minimum as usual.

How do I calculate my Light Weight shipment? Charges for Light Weight shipments are total shipment weight, per delivery. Any shipment above 40lbs will not qualify for this rate. Please be advised that your whole shipment may not arrive at its destination at one time. Therefore you may be charged per each delivery.

What are Crated materials?

Materials delivered that are skidded or in a container that can easily be unloaded/reloaded with no special handling required.

What are Uncrated materials?

Materials delivered that are loose, pad-wrapped or unskidded without proper lifting bars and/or hooks.

What is Special Handling?

Shipments delivered that require extra labor for stacking or unstacking containers on a truck, tarping or untarping freight or containers, or rigging pieces for loading or unloading on a truck or from the ground, or other circumstances requiring the rehandling of materials. Cannot be completed solely with one forklift and operator.

What are Advance Shipments?

All shipments that are addressed to the advance warehouse address (please refer to "Advance Warehouse" shipping labels included in this manual). Shepard will begin accepting your shipments 30 days prior to first show open day (date may vary depending on show schedule).

The warehouse will receive shipments Monday-Friday, 8:00am - 4:00pm, excluding holidays.

Shipments must arrive by advance warehouse deadline date to avoid a late surcharge. (Please refer to the "Show Information" page included with this manual for deadline date.)

Crate, cartons, skids, fiber cases, and carpets can be accepted at the warehouse, but DO NOT ship crates weighing over 5,000 lbs., loose/uncrated shipments and/or machinery to warehouse. You must ship those items direct to show site.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required.

All shipments must be prepaid, no collect on delivery shipments will be accepted.

What are Direct Shipments?

All shipments that are addressed directly to the exhibit facility (please refer to "Direct to Show" shipping labels included in this manual).

Shipments must arrive during published exhibitor move-in times only. Do not ship direct to show site in advance. If delivery cannot be guaranteed to arrive during exhibitor move-in, shipment must go to advance warehouse.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required.

All shipments must be prepaid, no collect on delivery shipments will be accepted.

What is and why would I need liability insurance?

Accidents happen, therefore, most show organizers and facilities require liability insurance. Please refer to your booth contract for exact minimums required.

Please make sure your materials are covered from the moment they leave your company location to the time they return after the close of the show. If applicable, included in your manual is information and an application for liability insurance and booth coverage can also be purchased to protect your valuable exhibit materials.

Outbound Shipping

You must complete a Shepard Material Handling Agreement (MHA) for all outbound shipments. A MHA will be distributed at show site if all services have been paid in full, or you can request one at the customer service desk.

Upon completion of packing and labeling of your materials, complete the bill of lading with all required information, and return to customer service. If you have questions on how to complete your bill of lading, please ask a Shepard customer service representative located at the customer service desk.

If you are NOT using the designated shipping carrier, you must call your carrier with pick-up information. If your carrier fails to pick up your shipment, Shepard will either reroute your freight through the carrier of our choice or return to the local warehouse (whichever is indicated on your MHA).
For targeted shows (exhibitors who received/requested a Targeted Date/Time), a surcharge will apply if shipment is not delivered (or carrier has not checked in) during show hours at the show facility, a charge will apply to receiving and delivering envelope packages to your booth. All shipments must have certified weight tickets. Shipments without certified weight will be subject to special handling or reweigh fees.

Shipments weighing 40lbs or less will qualify for the light weight shipment rate. Shipments exceeding 40lbs will be billed standard Material Handling fees at the prevailing material handling rate.

A charge per crate, carton or skid applies when Shepard handles the storage and return of empties from a shipment not received by Shepard and therefore not subject to storage charges. The charge is a one-time charge that includes both move-in and move-out of the show, and is based on the weight of the shipment handled.

SPECIAL HANDLING DEFINITIONS  Rate as shown on Material Handling Rate Form, approx 30%

Shipment received that are packed in a manner as to require additional handling/labor are deemed special handling. Examples of shipments falling into this category would be constricted space unloading, ground unloading, stacked shipments, designated piece unloading, shipment integrity, mixed shipments, no bill of lading or documentation, carpet/pad only shipments.

•Constricted Space - Freight packed in trailer to full capacity. Shipments are not easily accessible because trailer is loaded by cubic space, or top to bottom and side to side.
•Stacked Shipments - Shipments with multiple pieces stacked on top of one another throughout the majority of the truck or trailer requiring unstacking during the unloading process.
•Mixed Shipments - Mixed shipments are shipments that contain a mixture of uncrated and crated materials, and the uncrated portion is minimal deeming the shipment special handling but not uncrated. But in cases where greater than 50% of the load by volume is uncrated the load will be categorized as uncrated.
•Shipments Integrity - Shipments loaded on a carrier in a manner requiring separating or sorting to reestablish the integrity of each shipment.
•Constricted Space - Freight packed in trailer to full capacity. Shipments are not easily accessible because trailer is loaded by cubic space, or top to bottom and side to side.
•Stacked Shipments - Shipments with multiple pieces stacked on top of one another throughout the majority of the truck or trailer requiring unstacking during the unloading process.
•Mixed Shipments - Mixed shipments are shipments that contain a mixture of uncrated and crated materials, and the uncrated portion is minimal deeming the shipment special handling but not uncrated. But in cases where greater than 50% of the load by volume is uncrated the load will be categorized as uncrated.
•Shipments Integrity - Shipments loaded on a carrier in a manner requiring separating or sorting to reestablish the integrity of each shipment.

Shipment rates are as shown on the Material Handling Rate Form: 35% Overtime: 30% Double Time: 50% These rates are subject to change without notice. The surcharge will be applied to the actual time the shipment is unloaded and reloaded.

Padded Van Deliveries: This applies to van line carriers that transport freight at cubic displacement rates, operate a non-standard dock height equipment, require freight documentation, carpet/pad only shipments.

•Constricted Space - Freight packed in trailer to full capacity. Shipments are not easily accessible because trailer is loaded by cubic space, or top to bottom and side to side.
•Stacked Shipments - Shipments with multiple pieces stacked on top of one another throughout the majority of the truck or trailer requiring unstacking during the unloading process.

But in cases where greater than 50% of the load by volume is uncrated the load will be categorized as uncrated.
•Shipments Integrity - Shipments loaded on a carrier in a manner requiring separating or sorting to reestablish the integrity of each shipment.

Cartload services are provided to those exhibitors arriving in privately-owned vehicles and have small hand-carried items that need to be delivered to and from the dock/booth location.

If you arrive with a truck, van, trailer, or truck with trailer filled with exhibit material you will not qualify for this service and will be redirected.

No personal trucks (one (1) ton & over), no rental trucks, trailers, or bobtails will be unloaded through cartload service.

All items must fit on flat bed cart (approximately 3’x4’ in size) and weigh less than 200 pounds. If items are designated by Shepard personnel to be too large or too heavy, materials will be billed at regular material handling rates.

Your vehicle must unload on the receiving dock of the exhibit hall. Shepard personnel will direct vehicles. The cart is not authorized to enter or go to any parking structure. There must be two (2) people with the vehicle; one person to go with your product to the booth space and one person to remove your vehicle from the unloading area to the parking area.

WE DO NOT ACCEPT: Microsoft® Word®, Excel®, or PowerPoint® files for artwork/graphics.

FONTS
If creating artwork in Adobe® InDesign® or Illustrator® there are two options when supplying fonts. Supply us with PC format TTF fonts. Change fonts to outlines. This prevents font substitution through layout and production. REMEMBER: if creating outlines, text is no longer editable.

Package the fonts from InDesign or Illustrator (File → Package → Check “Copy Fonts”) and submit with your artwork.

ARTWORK GUIDELINES
Document Size & Specs
All artwork should be created at 100% size at 150 dpi or in a proportionally scaled down format (ex. 50% at 300 dpi or 25% at 600dpi). NOTE: Mark artwork to the dimensions it is sized to if not 100%. All content should be kept within the live area, leave approximately 2” all the way around artwork to ensure sign holder or structure metal does not cut off content.

COLOR
All artwork should be created/supplied in the CMYK color space. Please provide Pantone® colors/HEX code if we need to match a specific color during the printing process. All PMS colors should be converted to CMYK Process Color in the artwork. NOTE: Converting color from RGB to CMYK will change the vibrancy and the look of some effects, DO NOT design artwork in RGB. Colors may vary due to output devices.

ARTWORK FILE TYPES & RESOLUTION
Artwork can be created in several ways. Here are some things to consider.

Vector
Vector-based artwork is resolution independent and can be enlarged or reduced without loss of quality. This is the preferred file type and is most often created in Adobe Illustrator and used for creation of logos and clip art.

Raster
This type of file is resolution dependent and will reproduce poorly if the appropriate file resolution is not supplied. If you supply raster art, it is best to save your artwork in a 1 to 1 (full size) output ratio at 150dpi or higher. Lower resolutions (1MB or smaller) will result in reduced image quality. File size should not exceed 200MB (if possible). Raster images are most often created in Adobe Photoshop® and is most often used for photographic images.

Resolution
Artwork should be 150 dpi at 100% scale or 300dpi at half size. This will ensure the artwork remains high resolution when printed at full size. See samples below.
LABOR
Maryland is NOT a “right-to-work” state. The installation and dismantling of prefabricated displays comes under the jurisdiction of the Carpenters union. Union Labor is available to assist in the installation and dismantling of exhibit booths. Exhibit labor, freight and rigging labor, electricians and plumbers can be arranged for at established rates, using the enclosed order forms.

EXHIBIT LABOR JURISDICTION
Carpenter union exhibit labor claims jurisdiction for the installation, dismantling, and first cleaning of prefabricated exhibits and displays. However, two (2) full-time exhibiting company employees may work without Carpenter Labor for one (1) hour on the installation (move in) and (1) one hour on the dismantle (move out), without union labor on booths that are larger than 10x10. Exhibitors may work in booths 10x10 or smaller without the use of union labor. Exhibitors are not permitted to use Power Tools (electric drills, power saws, etc.) on booths of any size. Manual tools such as hammers, screwdrivers, ratchets, pry bars, etc. are allowable for exhibitor use within the size and time frame limitation. Exhibitors may not borrow tools, ladders or other equipment from the exhibit facility or from Shepard Exposition Services.

MATERIAL/FREIGHT HANDLING JURISDICTION
Shepard Exposition Services has the responsibility of receiving and handling all exhibit materials and empty crates that comes in via over the road carriers. It is Shepard’s responsibility to manage docks and schedule vehicles for the smooth and efficient move-in and move-out of the exhibition. Shepard will not be responsible, however, for any materials they do not handle. Unloading or reloading of any freight into the exhibit hall by any and all private vehicles and contracted carriers will be handled by Shepard Exposition Services. Rates for material handling services are enclosed in this exhibitor service manual.

One individual from each exhibiting company is permitted one trip to hand carry items into exhibit facility. The use of dollies, hotel baggage carts, flat trucks, and other mechanical equipment is not permitted.

Vehicles must not be left unattended at the loading areas. Any unattended vehicles will be towed at the owner’s expense.

The Fire Marshal absolutely prohibits the storage of empty containers in the exhibit hall. Arrangements have been made with Shepard Exposition Services to store empty crates. Please refer to the Material Handling Information sheet in this service manual for the handling of empties, disposal of skids, etc.

GRATUITIES /BREAKS
Tipping is expressly prohibited. This includes such practices as giving money, merchandise, or other special consideration for services rendered. Do not give coffee breaks other than mid-morning and mid-afternoon, when the union has a 15-minute paid break. Meal breaks are one hour. Any attempt to solicit a gratuity by an employee for any service should be reported immediately to Shepard Exposition Services.

IN GENERAL
Exhibitors do not have to respond to grievances or complaints from union and trade personnel with respect to work jurisdictions. Please refer all such disputes and/or questions to Shepard management personnel immediately.

SAFETY
Safety of everyone working in the hall is of our utmost concern at all times. Standing on chairs, tables and other rental furniture is prohibited. This furniture is not engineered to support your standing weight. Shepard Exposition Services cannot be held responsible for injuries or falls caused by the improper use of this furniture. If assistance is required in assembling your booth, please order labor on the Labor Order Form included in this manual and the necessary ladders and tools will be provided.

Shepard Glossary

**Advanced Freight** – Refers to freight that has been sent to Shepard’s warehouse prior to the Event move in.

**Advance Order** – An order for services sent to service contractor prior to installation date.

**Aisle Carpet** – The carpet that is placed on the Event floor in the aisles to separate the booths.

**Back Wall** – Refers to the drape used at the rear of a standard booth.

**Bill of Lading** – A legal document that establishes the terms between the shipper (exhibitor) and transportation company (carrier) for the transport of goods between specified points for a specified charge. A bill of lading is required to be filled out and turned in at the Shepard Service Desk at the close of the show, after the exhibitor is all packed up, in order to Shepard to release the freight to the transportation company (carrier).

**Booth Package** – This term describes the equipment supplied to exhibitors from show management.

**Certified Weight Ticket** – Certified weight ticket is a required documented measurement used for shipping exhibit properties. All carriers checking into a Shepard marshaling yard are required to present a certified weight ticket at check in.

**Common Carrier** – A transportation company moving exhibitor freight, which usually only accepts crated materials that it can consolidate with the properties of other customers into one shipment bound for the same destination. Only Shepard can accept freight from a common carrier.

**Corner Booth** – An exhibit space with exposure on at least two aisles, usually found at the end of a row of inline booths.

**CWT** – “Century Weight” or “hundredweight”. The total weight of a crate is divided by 100 to obtain billable weight. $1,000 lbs / 100 = 510 cwt

**Drayage** – The service that includes delivery of materials to an exhibit space, removal of empty crates, storage of crates during the Event, return of crates at the end of the Event, and delivery of materials to the carrier loading area.

**DT Labor** – Double-time labor, or work performed on double time and charged at twice the published rate.

**Empty Sticker** – A colored sticker used to mark empty crates and boxes for storage provided in the material handling service. See Service Desk for Empty Stickers.

**Exclusive Contractor** – One who holds an exclusive contract with a facility or event manager to provide specified services to that facility or Event.

**Exhibitor-Approved Contractor (EAC)** – Also called an independent contractor, a supplier hired by an exhibitor to perform trade Event services independently of Event management-appointed contractors.

**Forklift / Ground Rigging** – Handling and assembly of machinery that requires the use of a forklift. This includes positioning and/or re-skidding of exhibit material, machinery and equipment.

**Hard wall** – A type of exhibit construction in which walls are made of a solid material, rather than fabric.

**I&D** – Installation and dismantling of an exhibit by a labor source. Exhibitors may order this service from the general contractor.

**ID Signs** – Typically a 7” x 44” cardstock sign that contains exhibitor name and booth number.

**In-line** – An exhibit that is constructed in a continuous line with other exhibits.

**Island Exhibit** – An exhibit with aisles on four sides. There is no pipe and drape construction provided to Island booths.

**Labor** – Contracted workers who perform services. When labor is ordered, hours are based on estimates and will be billed actual time incurred. Requested times are not guaranteed and are based on availability. Minimum of one hour will be charged. Additional time will be billed in increments. Rates are based on when labor was performed: ST, OT, DT.

**Logistics** – Point to point transportation services for freight by an appointed carrier.

**Marshaling Yard** – A lot where trucks gather for orderly dispatch to Event site. When Shepard provides a marshaling yard, all carriers must check in, present a weight ticket, and will be guided to the docks to unload when a space is available. The same is true for the out of the show. Applicable fee applies.

**Move In** – Refers to the date and time that exhibitors gain access to a facility and are able to begin the construction and/or set up of their booth.

**Mobile Spotting Fee** – The charge for Shepard personnel to safely guide vehicles operated by exhibitors on the exhibit hall floor when approved by show management and if Shepard determines such activity to be operationally feasible and safe. All vehicles operated on the exhibit hall floor must be escorted by Shepard personnel. All local fire marshal rules and regulations apply. Please call customer service for details.
