

Training Course Agenda

617 – Fundamentals of Life Sciences Cleanrooms and Controlled Environment
Production

DAY 1

8:30 **Welcome and Introductions**

9:00 What is a Cleanroom?
US and EMEA Standards and Guidance

10:30 **Coffee/Tea Break**

10:45 Sources of Contamination

12:00 **Lunch**

13:00 Review of Different Production Spaces in Life Sciences: Biologics & Parenterals

14:30 **Coffee/Tea Break**

14:45 Activity: Cleanroom (Gown Up and See Parenteral Filling)

16:00 **End of Day 1**

18:00 **Optional Dinner/Tour at Rock Bottom Brewery for Bioprocess Tour (15 min walk) \$50**

DAY 2

8:30 **Recap Day 1**

9:00 Review of Different Production Spaces in Life Sciences: Medical Device, Solid Dosage, Vet

10:30 **Coffee/Tea Break**

10:45 Review of Different Production Spaces in Life Sciences: Compounding Pharma, Basic Microbiology,
Hygiene, Aseptic Technique

12:00 **Lunch**

13:00 Microbiology Lab Module and Role Play

14:30 **Coffee/Tea Break**

14:45 FDA 483 Review
Summary, Questions and Homework

16:00 **End of Training Course**
